### Liveaction background

(Inside the transport vehicle)

All the liveaction shots take place in a set that resembles the inside of the transport vehicle. The picture above is a reference for the tone of voice and not the actual set.

The Toa will start by standing close to the wall, 3 by 3 (frame 30-90). Later in the spot they will stand in the center in a V-formation facing camera (frame 100-120).

This is also the set that will be submerged together with the Toa.
