

### **Goodbye to the animators**

Ole only needs to animate three scenes before he can call it a day.

Thank you to Simon and Anthony for a great job and for the last extra scene produced for the Barraki Team  
(Click image to the left)

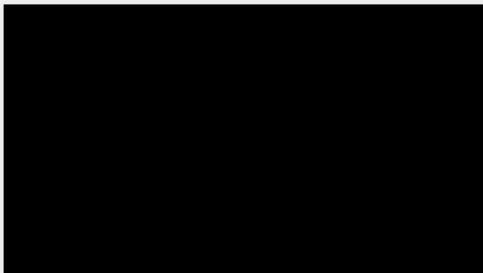

### **First approved scene**

The first Bionicle Barraki scene was approved by Thursday, and the official teaser trailer is close to the finish line. Faber did the art direction, Jesper did the comp and Lars did the talking.

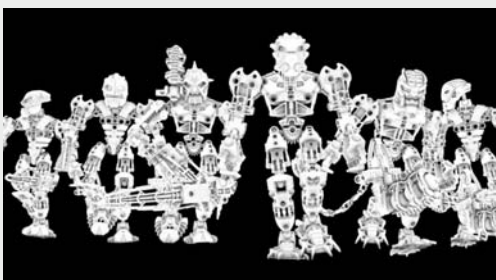

### **Barraki Sound/speak**

We got the first glimpse of the sound/Speak this week, and Tim (Editor) finally understood the purpose of the golden mask, and the strange creatures running around in the deep.

### **Ghost teaser evolution**

For the latest issue of Bionicle news we produce a "comp it Christian Faber Teaser Trailer". Lego like the idea and Sascha (Ghost) went back to German and did a remix of the Superman sound effect. Click the image to check it out.

### **Don't eat the food at fancy receptions**

But download all the high rez found in Bionicle news issue 5 instead;-)
