

BIONICLE

10.

We are in a huge circular room. At the centre of the room a large shaft of light hits the floor. At this point 6 big similar pieces or monoliths made from light stone sticks out of the floor. The room is made entirely from metallic protodermis. It is the center room of the Codrex. 6 Toa land on the floor. We follow one of them. Lewa the green Toa.
